Join us for our Regional 340B Roundtable event!

Proposed legislation at both federal and state levels necessitates that eligible 340B entities demonstrate agility and discipline in managing their programs. Successfully navigating the complex landscape of 340B pricing limitations established by Big Pharma demands a thorough comprehension of the existing regulatory framework. This roundtable aims to offer valuable insights to aid decision-making, enabling your entity to uphold compliance and optimize its 340B pharmacy program.

At this roundtable, we will network, discuss and share valuable insights for consideration in the management of your 340B pharmacy strategy.

- Current 340B federal and state regulatory environment
- Current 340B environment with drug manufacturers
- 340B transparency and reporting trends
- Ways your entity can position itself moving forward
- This event is intended to be educational for all members of your 340B Team, TPA agnostic, and open to all 340B members.
