

Patient Care Advocates are here to help!

Kesha Cooper
Patient Care Advocate

AffirmedRx is on a mission to improve health care outcomes by bringing clarity, integrity and trust to pharmacy benefit management. With a clinically focused, patient-centric approach, we are committed to making pharmacy benefits easy to understand, straightforward to access and always in the best interest of employers and the lives they impact. We accomplish this by bringing total clarity to business practices, leading with a clinical approach and utilizing state-of-the-art technology.

We promise to do what's right. Always.

We are here to help with:

Medication Assistance

Adherence Support

Prior Authorization Support

Medication Synchronization

Benefits Explanations/Questions

Financial Assistance

The AffirmedRx Patient Navigation team helps members navigate financial assistance for a patient-centric approach by finding copay card options through the manufacturer, or manufacturer trials, pharmacy discount cards, patient assistance programs and more!

Member Advocacy

AffirmedRx's Patient Navigation team functions as the patient advocate between provider and pharmacy—minimizing disruptions, relieving common frustration and eliminating back and forth communication for patients. Our Patient Navigation team understands the pharmacy ecosystem and leverages that to create a patient-centric approach to pharmacy benefit management.

We are here to help you get the best medication for you at the lowest cost – contact us today!

White-Glove Service

A real-life example:

One of our members was prescribed a medication that required Prior Authorization (PA). Unfortunately, after a week and multiple outreaches, the PA was never submitted. Our Patient Care Advocate was able to search for a discount card and provide quotes at multiple pharmacies. This allowed our member to find the biggest cost savings opportunity and we were able to transfer the member's medication to her local store. The member saved over \$100 and obtained her medication the same day. In addition, this member's husband, who was prescribed a medication excluded from the plan, was able to **receive his specialty medication free through the patient assistance program through the end of the year.**
