

The Healthcare Industry is Now the Biggest Target for Cyberattacks in the U.S.
Cybersecurity Vulnerabilities and Intrusions Pose Risks for All Hospitals, Their Patients, and Their Reputations

ComplyAssistant: A HASC Endorsed Business Partner

Takes pride in offering Governance, Risk and Compliance services that help all members understand their current privacy and cybersecurity posture along with an ongoing roadmap for reducing risk and increasing governance and compliance.

COMPLYASSISTANT HOSPITAL CYBERSECURITY MANAGEMENT PROGRAMS:

Governance Risk and Compliance Software:

A structured tool for documenting evidence of due diligence and for keeping everyone on track to address tasks that mitigate privacy and cybersecurity risks and increase patient safety.

It Is Most Important To Provide All Hospitals With A Risk Mitigation Roadmap and The Support To Meet It

A Virtual CISO Program:

Provides essential Governance, Risk and Compliance expertise and experience and delivers an actionable, transparent, and a mutually managed plan.

Sample v-CISO Services:

- Audits – HIPAA, HICP, NIST, SOC2, HITRUST, and more
- Third Party (BA) Vendor Risk Management
- Business Continuity Planning For Extended Downtime
- Patient Privacy Monitoring
- Online Web Tracking Technology
- Technical Vulnerability and Pen-Testing
- AI based Breach Detection Tools
- Governance and Oversight Reporting
