

InfraGard

An Alliance for National
Infrastructure Protection
www.infragard.fbi.gov

Members Requirements

- Be employed or formerly employed in a critical infrastructure sector.
- Be at least 18 years of age.
- Be a U.S. Citizen (U.S. Citizen by birth as defined by 8 USC 1401-1409 or a U.S. Citizen by Naturalization as defined by 8 USC 1421-1459).
- Complete the InfraGard membership application form.
- Agree to the following: InfraGard Information-Sharing Policy, Privacy Act Statement, Agreement to Hold Harmless, and Code of Ethics.
- Consent to an FBI-conducted security risk assessment, which includes local, state, and federal criminal history and other security-related database checks.

Note: Students are eligible to apply as long as they meet the above membership requirements.

Critical Infrastructure Sectors

1. CHEMICAL
2. COMMERCIAL FACILITIES
3. COMMUNICATIONS
4. CRITICAL MANUFACTURING
5. DAMS
6. DEFENSE INDUSTRIAL BASE
7. EMERGENCY SERVICES
8. ENERGY
9. FINANCIAL SERVICES
10. FOOD AND AGRICULTURE
11. GOVERNMENT SERVICES AND FACILITIES
12. HEALTHCARE AND PUBLIC HEALTH
13. INFORMATION TECHNOLOGY
14. NUCLEAR REACTORS, MATERIAL AND WASTE
15. TRANSPORTATION SYSTEMS
16. WATER AND WASTEWATER

Members Benefits

Information and Intelligence

- 24/7 access to InfraGard's secure web portal infragard.fbi.gov.
- FBI and DHS Threat Advisories and Alerts, Intelligence Bulletins, Analytical Reports, Vulnerability Assessments, Webinars, and more.
- FBI-accredited website with secure messaging that promotes communication among members.

Unique Networking Opportunities

- Information sharing and relationship building with the FBI and other government agencies.
- Peer-to-peer collaboration across InfraGard's membership of security stakeholders and leaders in the U.S. critical infrastructure landscape.
- Interchange of sector-specific expertise and information via the INMA-led National Sector Security and Resilience Program (NSSRP) and Cross-Sector Council (CSC) Program.

Training and Education

- Virtual and in-person educational events, training programs, workshops, and symposiums produced by the FBI, INMA, and InfraGard Member Alliances.
- FBI and other government agency briefing at local InfraGard Member Alliance events.
- FBI and other government agency resources relevant to critical infrastructure protection and national security.
- Online courses and workshops on all threats and hazards via the InfraGard National Education Program.

Defending our Nation's most Critical Assets

The mission of the InfraGard program is to enhance our nation's collective ability to address and mitigate threats to United States critical infrastructure by fostering collaboration, education, and information sharing through a robust private sector/government partnership.

To accomplish this mission, InfraGard promotes ongoing dialogue and timely communication between its members and the FBI through local, regional, and national programs. This two-way exchange of information equips InfraGard members with the knowledge, information, and resources to protect their respective organizations, while the FBI benefits from private sector engagement, insight, and expertise that can help prevent terrorism, cybercrime, espionage, and more.

InfraGard Member Alliances

**Thousands of members, one mission:
Protecting critical infrastructure, the foundation of American life.**

Partnership is our Key Resource in Protecting our National Security Interests

The mission of the Federal Bureau of Investigation (FBI) is to protect the American people and uphold the U.S. Constitution. InfraGard is a unique partnership between the FBI and the private sector for the protection of U.S. critical infrastructure and the American people. As one of the nation's largest public/private partnerships, InfraGard connects critical infrastructure owners, operators, and stakeholders with the FBI to provide education, networking, and information-sharing on security threats and risks.

Critical infrastructure are those systems and assets—whether physical or virtual—that are considered so vital to the United States that their incapacitation or destruction would have a debilitating effect on national economic security, national public health or safety, or any combination thereof.

With tens of thousands of members nationwide, InfraGard's membership includes: corporate security managers, directors and C-suite executives, cybersecurity and IT professionals, chief information security officers, financial services executives, healthcare professionals, emergency managers, military and government officials, academia, state and local law enforcement, and more—all dedicated to contributing industry-specific insight to advance national security. Today, there are members in more than 77 local InfraGard Member Alliances (IMAs), represented nationally by the InfraGard National Members Alliance (INMA).
