

The ongoing shortage of specialized nurse and allied health employees is one of the most critical challenges facing health care leaders across the country. To assist providers, HASC is partnering with [HospitalCareers.com](https://www.hospitalcareers.com) – the leading recruitment platform and job resource for job seekers and employers across the health care industry.

HospitalCareers connects candidates and hospitals to find the perfect match. Through a network of 33 state hospital associations, advanced online recruitment strategies and a programmatic job distribution network, HospitalCareers provides HASC members with the most cost-effective recruitment resource to attract and retain the highest-quality candidates.

Benefits of HospitalCareers.com:

- A direct link to qualified health care professionals actively seeking hospital employment
- **Unlimited** job postings, candidates, applications and hires throughout the year
- Listing of jobs across the U.S.-wide hospital association network, including HospitalCareers.com, Google for Jobs platform, Southern California premier colleges and universities, and our own job advertising networks
- Admin Panel access that keeps track of jobs, job views and interactive clicks
- A resource for students, parents, educators and legislators interested in hospital careers and workforce trends

HASC participants include:

- UCI Health
- Riverside University Health System
