Connecting Industry To Outstanding Healthcare Staff Candidates

The Los Angeles Regional Consortium (LARC) is a regional approach to workforce development. In Los Angeles County, healthcare is one of the fastest growing industries. With the need for allied health workers growing, it is crucial that a robust talent pipeline exists for these occupations. The following 13 colleges are working together to be part of the solution:

- East Los Angeles College,
- El Camino College,
- Long Beach City College,
- Los Angeles City College,
- Los Angeles Harbor College,
- Los Angeles Mission College,
- Los Angeles Pierce College,
- Los Angeles Southwest College,
- Los Angeles Trade-Technical College,
- Mt. San Antonio College,
- Pasadena City College,
- Rio Hondo College,
- West Los Angeles College

West Los Angeles is leading this project. For more information on how to get involved with this project, please email Dean Tiffany Miller at millerTS@wlac.edu

If you are interested in marketing open positions to graduates, providing externship opportunities to allied health students, or learning more how you can partner with An LARC community college allied health program, please refer to the contact information provided.
