In-person LEAD Academy
Guiding health care leaders to
success, together

MAKE AN IMPACT

Whether you're a new health care manager or want to enhance your skills, LEAD Academy is for you! In 12 intensive online modules, you'll learn how to use your strengths to become a more effective leader.

In this live virtual course, you'll access all the benefits of an in-person LEAD Academy while saving on time and costs. You'll take part in group discussions and projects that will help you feel a sense of community as you, your classmates and course leaders share real-time insights and feedback.

Designed to help you succeed as a health care leader, LEAD will empower you to develop the productive work relationships needed to support excellent patient care, achieve business objectives efficiently and maintain a safe patient environment.

As a participant, you can:

- Become more engaged in your learning
- Interact with classmates and get feedback in real time
- Feel a greater sense of connection with your peers
- Skip the commute, gain more time and reduce your carbon footprint

ACADEMY OBJECTIVES

At the end of LEAD Academy, you'll be able to

- 1** Better use your self-management skills in everyday and stressful situations
- 2** Enable people and groups you supervise to improve their performance
- 3** Enhance your contributions toward achieving facility and system goals

HASC also offers private in-person LEAD sessions, customized to your organization's preference and number of participants. The private program also includes interactive exercises and practical tools that managers can apply in their work. For more information about setting up a private in-person LEAD Academy or for any questions, please contact Sherita Aquino, saquino@hasc.org, or Sharri Dixon, sdixon@hasc.org.

The LEAD Academy virtual modules use collaborative tools that encourage active learning, as in a physical classroom experience. Small group discussions, digital whiteboards, videos, polling and screen sharing will help you engage with the material and your peers. Pre- and post-session work help ensure you develop a high level of skills and outcomes.

OUR FACULTY

Working with HASC, **IRI Consultants** designed the LEAD Academy based on its 30-year track record of helping health care organizations become more effective and successful. This record in turn is based on IRI Consultants' strong affiliations with the American Hospital Association (AHA), the American Society for Healthcare Human Resources Administration (ASHHRA), The Healthcare Roundtable, and state and regional hospital associations like HASC.

Pamela Cunningham is a Six Sigma Black Belt skilled at blending the technical and human sides of high performance. A master facilitator, certified coach and highly regarded trainer, she has designed and conducts leadership training for clinical and nonclinical managers for private- and public-sector health care organizations throughout the western United States. A certified LEAN practitioner, Cunningham also has advised hospital executives on LEAN programs, process improvement and human performance system strategies to resolve various organizational issues quickly and effectively.

Marcey Uday-Riley, MSW, CPT, has been a human performance and organization development consultant for more than 25 years. She served as a clinical behaviorist and manager in a large urban teaching hospital for many years. Uday-Riley now helps multiple organizations achieve business objectives as a consultant and trainer. She has provided executive, manager and leader training for numerous facilities.

Monique Gutierrez brings eight years of experience in organizational and leadership development, change management and labor relations. She studied organizational development in graduate school and is currently working on her PhD in business psychology. Her wealth of knowledge also includes a strong background in project management, group facilitation, employee opinion surveys and corporate needs analysis. Monique has conducted management training for leaders at all levels within organizations in the healthcare, manufacturing, logistics and hospitality industries. She also coaches leaders in managing employee engagement, performance, and employee relations issues.
