

Expand Your Workforce Pipeline with MedCerts Online Training and Certification Programs

California has a huge unfilled need for allied health care professionals, and it's projected to get even worse over time. By the year 2030, California will need to train about one million more people to fill all its open allied health care positions.¹

At HASC, we know our member hospitals struggle with this challenge. It's why we've partnered with MedCerts to offer you proven solutions that help address staffing shortages and build long-term workforce sustainability.

MedCerts is an award-winning health care and IT online training program that's trained over 60,000 health care professionals nationwide. The MedCerts Partner Solutions Team delivers custom health care workforce solutions that equip you with scalable, affordable staffing and career pathway models.

Through this program, HASC members can access workforce development solutions that expand your talent pipeline and support community development:

- **Community-based Talent Pipelines** – Collaborate with local workforce boards and MedCerts to recruit, train and place community members in high-demand allied health care roles
- **Upskilling Your Workforce** – Investing in employees you already trust can be a great solution for your staffing shortage. Provide staff with growth opportunities, increase retention and reduce hiring costs.
- **Earn-and-Learn Apprenticeship Models** – Learners can support your mission and earn wages as they gain hands-on skills and certifications with Department of Labor-registered programs
