SpeedTrack: Intelligence Defined

HASC and SpeedTrack invite you to participate in a free, live, interactive demonstration of the intelligence affecting your service area. Your team will explore information on-the-fly to discover valuable market intelligence that affects all the providers that serve your community. Instead of looking at canned, static reports, you will uncover what you don't know by navigating through vital information for strategic planning, managed care, business development and specialty recruiting. **Contact Jeff Pratt (below) to reserve a 30 or 45 minute collaboration session with your team.**

Gain insights about:

- Where patients live, and where they go for what types of care
- Payer mix and demographics
- Lengths of stay by service line, payer or procedure, or a combination
- Diagnoses and procedures across all levels
- What the trends are, and geo-spatial mapping
