HOSPITALS & HEALTH SYSTEMS

Health care procurement teams will have access to a wide range of diverse suppliers, allowing you to expand your supplier base and strengthen your partnerships.

SUPPLIERS

Vendors and suppliers will learn about the needs and requirements of hospitals and health systems and how to position their businesses to meet those needs. They'll have the opportunity to network with hospital supply chain decision makers, showcase products and services, and establish long-lasting relationships that can lead to increased revenue and growth.

NETWORKING

Opportunities for hospitals and health systems and diverse groups of suppliers to exchange ideas, share best practices, and walk away with meaningful connections. All will leave with new contacts, insights, and strategies for success.
